Aflatoxin
fate in tortillas 856
Air
SO_2 change in leaf luminescence 136
Alkyl cycloalkane-carboxylates
HPLC - linear solvation energy 633
Aluminum
biochemical effects on rat brain 715
effect on algal enzymes 758
Arsenic
accumulation in wetland rhizosphere 154
insect model for toxicity 843
in soil of town polluted 35 yr ago 649
Bacillus thuringiensis
effect on collembola 770
Bioassay
acute toxicity with earthworms 765
biomarkers for ecosystem effects 36
HPLC for fenitrothion exposure 29
L-929 fibroblasts and T. pyriformis 171
parasitism and Gammarus feeding 629
use of Phyllospora and Allorchestes 621
Biomarker
use of ecosystem effects 36
Bioremediation
pesticide degradation and rhizosphere 688
Butyltin
effect on germination 525
in foodstuffs 510
Cadmium
effect on photosynthetic pigments 573
Calcium
effect on Pb cardiac arrest 610
Carbendazim
residues in opium poppy 283
Carbofuran
effect on fish egg fertilization 111
Chlorane
human physical condition 838
octanol-water coefficients of components 149
timber treatment as point source 289
Chlorocresol
effect on Xenopus reproduction 195
Chlorpyrifos
uptake by aquatic insects 130
Chromium
effect on ATPases 722
removal from water 270

Cobalt
effect on algal growth 65
Copper
and ammonia effects on catfish 187
fish oxygen tolerance 517
temperature and fish survival 230
toxic effects on fish 81
Cross-sensitivity
DNBS with DNCB 787
DDT
soil persistence 142
distribution in cows 863
effect on eosinophil leukocytes 309
effect on rat blood parameters 14
DDVP
survival genetics of fish 737
Deltamethrin
dissipation in green gram 562
Dichloroethane
toxicity to human KB cells 316
Diflufenican
analytical method, soil, water 800
Dioxin
reduction in fish by cooking 264
DNBS
cross-sensitivity with DNCB 787
DNCB
cross-sensitivity with DNBS 787
Dyes
toxicity to algae 920
Earthworms
acute toxicity studies
Ecosystem
effects of B.T. on Collembola 770
Effluent
municipal wastewater for irrigation 696
tannery bioremediation 546
titanium from pulp and paper 876
Endosulfan
effect on catfish 914
effect on crab blood parameters 116
Estrogen
effect on eosinophil leukocytes 309
Fenitrothion
biological monitoring 29
Fenvalerate
dissipation in green grass 562
Fluazfor-p-butyl
residue in soybean 276

Fluoride
teeth resorption in rabbits 708
Formaldehyde
effect on germination 525
in textiles 808
Glutathione
transferase in fish gill 201
Heavy metal
Ag bioconcentration in mushrooms 122
Al and Zn effect on algal enzymes 758
Al effects on rat brain 715
butyltin in foodstuffs 510
Cr effect on ATPases 722
Cr removal from water 270
Cr and fish oxygen tolerance 517
Cu toxic effects on fish 81
effect on AChE of crayfish 745
effect on insect lipid content 216
effects on fish cell lines 222
elimination of $HgCl_2$ from water 554
Hg distribution, sources, N. Jersey, USA 899
Hg in Barents Sea fish 673
Hg in particulates, Arctic seas 891
in blue crabs, Connecticut, USA 681
in endoparasites 533
in fly ash amended soil 502
in goats 568
in sediment, Straits of Malacca 665
in shrimp 209
in Sparus sarba, UAE 581
methyl-Hg distribution in rats 588
Mg, Co, Hg effects on root tip cells 778
Ni effect on algal growth 73
Ni effects on goldfish behavior 927
Pb biological monitoring 831
Pb in blood and teeth of children 851
titanium in pulp effluent 876
Herbicide
isoproturon effect on aquatic organisms 104
residues after 9 annual applications 303
Human
children's mental decrease and PCBs 8
chlordane and physical condition 838
chromatid exchanges in cement workers 703
lead in blood and teeth of children 851
nitrosamines, Nigerian medicinal plants 641
organochlorines in fat 43
permethrin reentry symptoms 487
urinary p-nitrophenol from parathion 296

Hydroxypyrene
toxic activities 251
Immunoassay
diuron 479
Isoproturon
analytical method, soil, water 800
effect on aquatic organisms 104
Lead
aminolevulinic acid dehydratase exposure indicator 831
Ca effect on cardiac arrest 610
in blood and teeth of children 851
Lindane
effect on rat blood parameters 14
transport to the sea 603
Malathion
histopathology of lizards 729
MCPA
degradation by microorganisms 539
Mercury
effect on AChE of crayfish 745
effect on photosynthetic pigments 574
elimination of $HgCl_2$ from water 554
Hg^{2+} effect on onion root tip cells 778
$HgCl_2$ effect on chemibenin essence 907
in Barents Sea fish 673
in particulates, Arctic seas 891
methylmercury distribution in rats 588
sediment distribution and sources, N. Jersey, USA 899
Metaldehyde
environmental impact 494
Methyl Tertiary Butyl Ether
toxicity to aquatic organisms 618
Nickel
behavioral effects on goldfish 927
effect on algal growth 73
Niclosamide
environmental impact 494
Nitrosamines
Nigerian medicinal plants 641
Oil
in Lake Manzala and canals, Egypt 258
plastic bag sample storage 597
Organochlorine
PCB, HCB, DDT, HCH in cows 863
genotoxicity structure-activity 794
in human fat 43
in lake and canals, Egypt 258
in tern eggs 657

testicular toxicity-rat 1
transfer to fish eggs 96
Paraquat
effect on frog tadpoles 865
Parathion
p-nitrophenol in urine 296
PCB
body and egg burden in birds 884
children's mental decrease 8
distribution in cows 863
in particulates, Arctic seas 891
O_2 consumption and body temperature, rat 22
Permethrin
effect on crayfish 58
symptoms in humans 487
uptake by aquatic insects 130
Phenol
chlorocresol effect on Xenopus reprod. 195
effect on fish cell lines 222
toxicity to sediment bacteria 245
Phosphorus
periphyton biomass 823
Pyrene
toxic activities of hydroxypyrene
RDX
photolysis 89
Selenium
sodium selenite effect on chemiluminescence 907
Silver
bioconcentration in mushroom 122
Sodium monofluoroacetate
leaching in soil 162
SO_2
change in leaf luminescence 136
Sulfur mustard
effect on guinea pig skin 50
Surfactant
effect on amphipod 179
invertebrate and fish responses 750
1080
leaching in soil 162
Testicle
testicular toxicity of organochlorines 1

Titanium
in pulp and paper effluents 876
Triazine
photolytic reduction in toxicity 89

War gas
sulfur mustard - guinea pig skin 50
Water
carbofuran effect on fish egg fertilization 111
chlorocresol effect on Xenopus reprod. 195
cobalt effect on algal growth 65
Cr removal from water 270
Cu and ammonia mixtures on catfish 187
Cu, temperature and fish survival 230
DDVP genetic survivors in fish 737
dioxin reduction by cooking fish 264
diuron immunoassay 479
dye toxicity to algae 920
elimination of $HgCl_2$ 554
endosulfan effect on crab blood parameters 116
glutathione S-transferase in fish gill 201
heavy metal leaching in soil 502
heavy metal in shrimp 209
HPLC alkyl cycloalkone - carboxylates 633
invertebrate and fish responses to surfactants 750
lindane transport to the sea 603
municipal effluent in irrigation 696
oil, organochlorines in lake and canal, Egypt 258
organochlorine transfer to fish eggs 96
permethrin effect on crayfish 58
phenol toxicity to sediment bacteria 245
plastic bag storage of oil samples 597
surfactant effects on amphipod 179
tannery effluent bioremediation 546
toxicity and genotoxicity of river water 237
Zinc
accumulation in wetland rhizosphere 154
effect on algal enzymes 758
respirometer method, soil 815
